

CANADA
4-H PEI

WHAT IS 4-H?

4-H PEI is a program for all youth ages 9-21, with some Clubs accepting younger members as Cloverbuds. Upon registering with a Club in a local community, members are given the opportunity to explore a skill based project, under the direction of a volunteer leader, while also learning about community service, agricultural awareness, public speaking skills and many other tools for positive mental, physical and social health. Members achieve success through direct participation and support from family members and volunteer leaders.
